

Description

This enclosure mounts inside the rear of the Sun/StorageTek SL8500 allowing for MTP trunks to enter from the bottom and Jumpers to exit through the top and onto their given tape drives. This scalable solution allows the user to install up to (12) 6 channel LC Cassettes with front MTP access as needed. A hinged door makes it easy to access the fiber terminal area and insures clean well organized fiber management when closed.

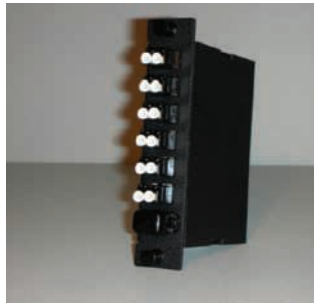

Features / Benefits

- Up to 72 LC channels
- Front MTP Access
- Houses (12) 6 channel Front MTP Cassettes
- Fiber management shelves
- Hinged door in front to cover fiber

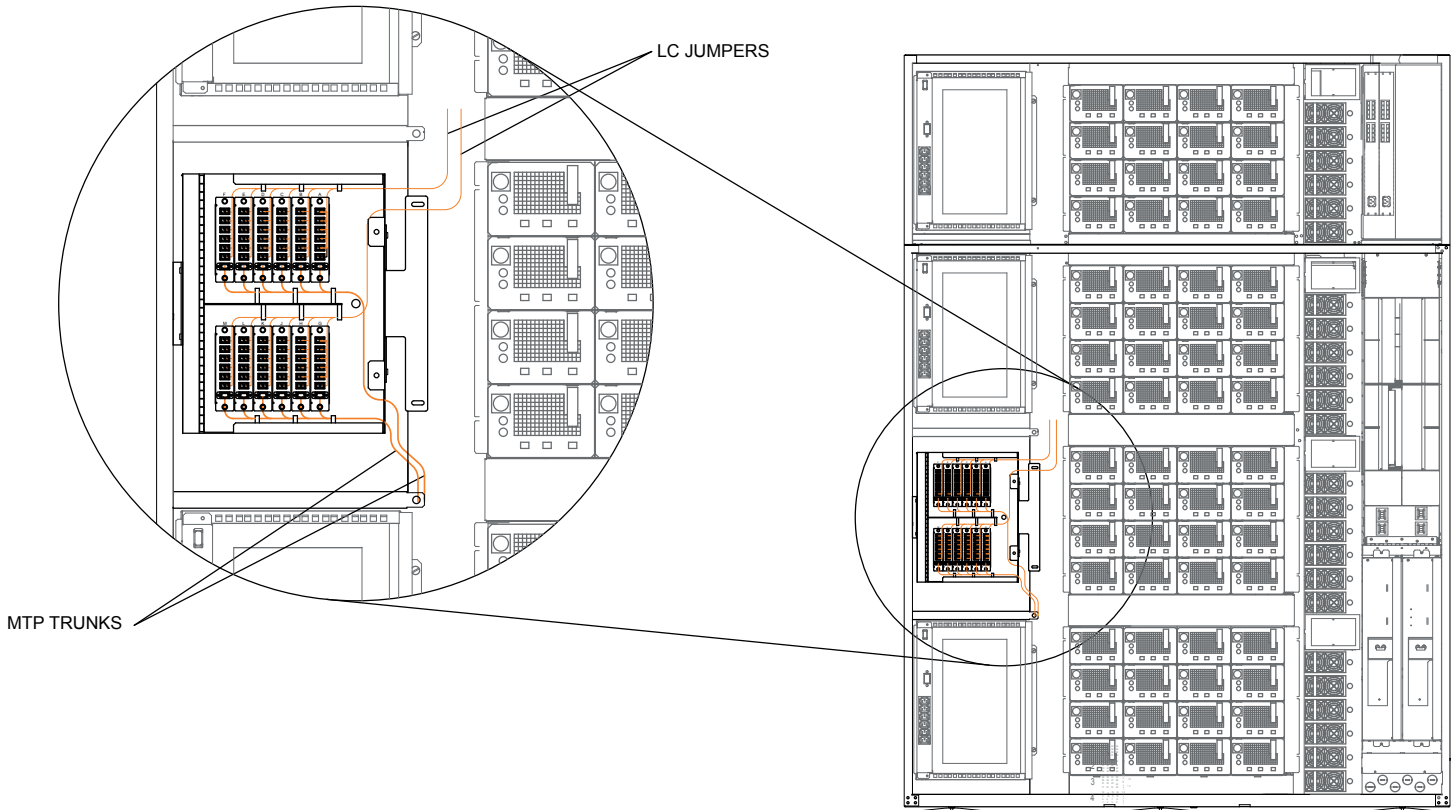

Specifications

(W x H x D) 12.25" x 15.65" x 6"

6 channel LC Cassette
With front MTP access
